Construct Week Participation

Certificate - B32

Masai School

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer with expertise in MERN stack. Skilled in collaborating with product managers, designers, and developers to translate project requirements into functional web applications. Dedicated to maintaining seamless integration between frontend and backend components. Up-to-date with the latest web development trends and technologies.

PROJECTS

1. Quiz Me | |

React | Redux | Node.js | Express.js | MongoDB

- Developed a quiz application with user authentication, quiz management, and result tracking features
- Implemented role-based access control to differentiate between user roles
- Coordinated with the team as a team lead to ensure smooth workflow and timely completion of tasks

2. Bon Voyage | |

HTML5 | CSS3 | JavaScript | Redux | React |

Responsive Web Design | Git

- Created a full-stack travel website with user registration and authentication features
- Designed and developed the single package page to showcase detailed information about each vacation package
- Collaborated with a team of 5 members to create an innovative online vacation booking platform

3. Traveller-Symphony | |

HTML5 | CSS3 | JavaScript | Git

- Designed and developed a traveler website with features like sorting, searching, and filtering
- Created user-side and admin-side panels with login and registration features
- Implemented JSON Server for mock-API and Git for version control

ACHIEVEMENTS

Half Zoom Marathon Challenge
