

Nidhi

Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer with expertise in Front-End Development. Proficient in HTML | CSS | JavaScript | React. Skilled in translating project requirements into functional web applications and ensuring seamless integration between frontend and backend components. Up-to-date with the latest web development trends and technologies, with a commitment to continuous improvement. Excellent problem-solving and communication skills, dedicated to delivering innovative and reliable websites.

PROJECTS

1. Bon Voyage | |

HTML5 | CSS3 | JavaScript | Redux | React | Responsive Web Design | Git

- Collaborated with a team of 5 members to create **Bon Voyage**, an innovative online vacation booking platform
- Designed a user-friendly interface using **HTML/CSS** and **JavaScript**, with the frontend powered by **React.js** and **Chakra UI**
- Implemented robust features including user registration, package filtering, detailed listings, booking functionality, and secure payment processing
- Ensured a seamless and stress-free travel experience for users through efficient design and secure authentication

2. Figma Clone | |

HTML5 | CSS3 | Responsive Web Design | SASS

- Developed a Figma clone using HTML, CSS, and SASS
- Implemented a well-structured layout with a navigation bar, blog content, comments section, author details, related fields, and a footer
- Utilized SASS for efficient styling, ensuring a visually appealing and cohesive design
- Created a Contacts Page with an integrated map, message field, information section, and footer
- Collaborated with a team of 5 members in a 7-day timeframe

3. Traveller-Symphony | |

HTML5 | CSS3 | JavaScript | Git

- Designed and developed a traveler website using HTML5, CSS3, and JavaScript.
- Developed a well-organized project structure, including landing pages, sign-in/sign-up pages, destination pages, contact pages, about us pages, and booking details pages for an optimal user experience.
- Created user-side and admin-side panels with login and registration features.
- Implemented functionalities like sorting, searching, filtering. Created user-side and admin-side panels with login and registration features. Utilized JSON Server for mock-API and GIT for version control.
- Utilized JSON Server for mock-API and GIT for version control.
