Projects

Bon Voyage   <u>Live Demo Link</u>   <u>Github Repo Link</u>

HTML5   CSS3   JavaScript   Redux   React

Responsive Web Design   Git

- Designed and developed a traveler website presenting a diverse array of destinations and accommodations
- Implemented user registration and authentication for a seamless booking experience
- Created separate home and destination pages showcasing latest information and featured packages

Traveller-Symphony   <u>Live Demo Link</u>   <u>Github Repo Link</u>

HTML5   CSS3   JavaScript   Git

- Designed and developed a traveler website with sorting, searching, and filtering functionalities
- Created user-side and admin-side panels with login and registration features
- Utilized JSON Server for mock-API and Git for version control

Figma Clone   <u>Live Demo Link</u>   <u>Github Repo Link</u>

HTML5   CSS3   Responsive Web Design

- Contributed to the development of a Figma clone, a powerful design tool for creating and testing website and mobile app designs
- Made web pages responsive and added information section to the contact page
